PROFESSIONAL SUMMARY

Frontend Developer with nearly 3 years of experience building production-grade web applications for fintech and healthcare platforms using React.js and TypeScript. Skilled in reusable component architecture, REST API integration, state management, and performance optimization, with a strong focus on accessibility, SEO, and responsive UI. Delivered 16+ production screens for a multi-bank fintech platform. Proficient with AI-assisted development tools — GitHub Copilot, ChatGPT, Claude, and Google Gemini to accelerate development and improve code quality.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3
Frameworks & Libraries: React.js, Next.js, Redux, Context API, TanStack Query (React Query)
Styling & UI: Tailwind CSS, Material UI (MUI), SCSS, Responsive Design
API & Data Handling: REST APIs, Axios, Fetch API, async/await, JSON
Performance & Web: Code Splitting, Lazy Loading, Memoization, Web Vitals, Lighthouse, Accessibility, SEO
Tools & Deployment: Git, GitHub, VS Code, Chrome DevTools, Vercel, Netlify
AI-Assisted Development: GitHub Copilot, ChatGPT, Claude, Google Gemini

PROFESSIONAL EXPERIENCE

Software Developer

Bankai Informatics Pvt. Ltd. (formerly Acute Informatics) — Fintech Applications **Jan 2024 – Present**

- Developed and maintained 16+ production screens for a multi-bank fintech platform using React.js, TypeScript, and Material UI, ensuring responsive design consistency and cross-browser compatibility.
- Refactored legacy modules into reusable, modular React components, improving maintainability and consistency across application screens.
- Integrated REST APIs into core banking workflows, implementing robust data handling and responsive user interfaces.
- Optimized frontend rendering through lazy loading, code splitting, and memoization to improve application performance.
- Collaborated with backend developers and QA team to deliver production releases.
- Leveraged AI-assisted tools, including ChatGPT and GitHub Copilot, for debugging, refactoring, and code quality improvements.

Tech: React.js, TypeScript, Material UI, REST APIs

Freelance Frontend Developer

h-Case — Healthcare Application **Oct 2023 – Jan 2024**

- Collaborated on appointment scheduling, intake forms, and administrative workflows to deliver consistent healthcare user experiences.
- Implemented reusable UI components and managed application state using Redux for consistent user interactions across healthcare workflows.

Tech: React.js, JavaScript, Redux, Material UI

PROJECTS

GitScope – GitHub Developer Insights | gitscope-insights.vercel.app

- Built an interactive dashboard visualizing GitHub activity, repositories, and programming languages using Next.js and TypeScript.
- Implemented caching, pagination, and static generation, achieving a Lighthouse performance score of 95+.

Tech: Next.js, TypeScript, Tailwind CSS

Atmos – Weather Dashboard | atmos-sky.vercel.app

- Built a responsive weather application with geolocation, debounced city search, hourly and five-day forecasts, and temperature unit switching.
- Integrated the OpenWeather API with resilient loading and error states for asynchronous requests and network failures.

Tech: Next.js, TypeScript, Tailwind CSS

Personal Portfolio Website | rushibutani.me

- Designed and developed a fully responsive personal portfolio site with smooth animations and SEO-focused architecture.

Tech: Next.js, TypeScript, Tailwind CSS

EDUCATION & CERTIFICATIONS

Frontend Development Course — TOPS Technologies, Ahmedabad 2022 – 2023
The Complete Frontend Web Development Course — Udemy
M.Sc. in Organic Chemistry — CCSIT College, Junagadh 2018 – 2020
